

AmbuCam

Remote Viewing System

from **FalconDirect**

Improves administrative control!
Reduces litigation expense!

AFFORDABLE QUALITY WITHOUT COMPROMISE!

Our new Model 100 *AmbuCam* system is America's most affordable ambulance camera system with solid state reliability, easy to use SMC data recording cards and a 2 year factory warranty for just \$875 complete.

The Model 200 two camera system is just \$265 more and you can add GPS for just \$85 additional. The best system money can buy for just \$1,225 gives you inside and outside recording plus GPS tracking. You'll have improved administrative control and litigation avoidance evidence with travel records of speed and stops.

Eagleye is the preferred choice of many public safety and transportation users nationwide! Optional repeaters for cell phones and 2-way radios as well as live vehicle tracking with directional assistance and nationwide messaging are optionally available. Call 800.489.2611 or visit us on the Web at www.medicradios.com for more information!
