

Pocket Communicator

\$149!

Our new CS100 is light, loud, and long lasting! This radio was built for you to hear in noisy conditions and heard when you need to talk! The incredibly small size of the CS100 will be appreciated by all types of users in churches, on golf courses, in hospitals, plants, by highway crews, retail stores, and even public safety users! The CS100 meets high level MIL-SPEC 80 standards and is IP54 dust and moisture resistant!

We'll take care of programming all 16 channels set up for private alert or group alert, or both. BTW, you'll appreciate the audible channel announcement feature when you change channels in the dark, and you'll really appreciate the simple operating controls. This is a personal 2-way communicator that does it all with no monthly airtime charges.

More information is available at www.info4u.us/CS100.pdf. The CS100 is covered by a one-year worry free warranty and that's not all. Wait till you hear about the 3R Service! For a demonstration of the CS100, just give us a call at 800.489.2611, or drop us an email to ServinU@falcondirect.com, or come see us at 36 - 20th Avenue NW in Birmingham, AL. We'll have the coffee on!

Introducing the 3R Service Program

Repair
Replace
Return
\$89.00!

The 3R Program gives you a service plan unequaled by any other supplier at any price, anywhere. Here's how it works. If you ever have a problem with the CS100, just return it to us and tell what the problem is. It makes no difference whether it is a broken antenna, knob or clip. It could be a damaged display or a bad keypad. These are rare issues, but we'll take care of them.

If the battery won't hold a charge, or you lost the charger, that's not a problem. We'll replace them. Even cosmetic damage to the case will be fixed. That's what the 3R Plan is all about. If it's broke, we Repair it. If it needs replacement, we Replace it, and then we Return it for one flat rate charge of just \$89 including EVERYTHING! That's less than many suppliers charge for labor, or a battery, or a local service call. There is nothing else quite like the 3R Program. You're going to love it!
