

# CrookCatcher

Wireless Stakeout System

from Falcon Direct, Inc.

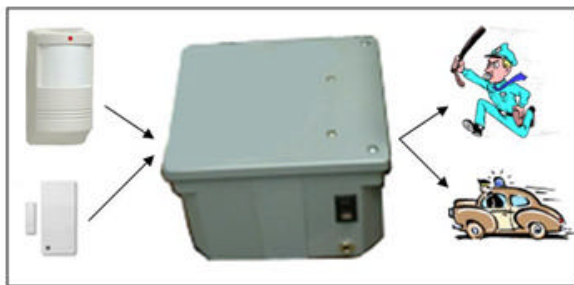

Instant setup – No power or phone lines required – No monthly charges!  
Works with your 2-way radio!

Our new CrookCatcher system gives your investigators a valuable tool to shift the odds back in favour of the good guys!

Just place the Central Processor Unit (CPU), the grey box on the left on the premises, then stick up the wireless motion sensor to detect foot traffic or the magnetic door sensor and you are in business!

Use CrookCatcher to catch copper, thieves, in vending machines, Laundromats and other high risk locations.

When activated, CrookCatcher sends a voice notification message directly to your VHF or UHF 2-way radio!

**Instant notification via your 2-way radio when an intruder is detected. No phone lines! No delays!**
