

E-Vision Vehicle **Surveillance & Tracking** from Falcon Direct

Records all activity in patient transport area plus GPS tracking!

Litigation avoidance and improved administrative control!

Our new *E-Vision* system is designed for litigation avoidance and improved administrative control!

Our *E-Vision* rear viewing camera system allows you to monitor and record activity in the patient transport area. This simple and affordable system can potentially save thousands of dollars in legal expense from suits claiming improper patient care.

The built in GPS tracking system records every move, stop, and speed, a great tool for administrative control and accurate evidence in the event the vehicle is involved in an accident.

The *E-Vision* system records every trip on a continuous loop Smart Media (SM) card with up to 8 hours of recording capability.

You'll have better administrative control, enhance personnel safety, and reduce litigation exposure!

Need improved rear vision capability when backing up? We've got it for just \$295 more.
