

Navman EZ-Route Bus Administration System

from Falcon Direct, Inc.

Locates – Routes – Communicates - Reports

EZ-Route is the ideal command and control system for all types of buses!
Costs about \$2 per day per bus!

Our new EZ-Route system is simple, efficient, and affordable with coverage that cannot be equalled by 2-way radio or cell phones

Send text messages to an entire fleet, group or an individual bus in complete privacy. Buses can communicate up to 100 text messages at the touch of a button – no voice required!

Monitor bus activity from any Internet connected PC with daily reporting of all stops, speed, and route deviations

Route new drivers with built-in routing instructions. If they miss a stop, the system provides a reminder. Driving directions to any location are instantly available. This system does it all!

EZ-Route is easy to use. Prove it for yourself by going to www.navmansystems.com and following the instructions to locate Burch's vehicle 24/7.
