

## It's grant application time!

The current FEMA Assistance to Firefighters Grant application period is currently open (Details at [www.firegrantsupport.com](http://www.firegrantsupport.com)). This program closes on April 4, 2008, but you still have time to apply if you act quickly.

As always, we will assist you by providing pre-prepared budget estimates and narratives at no charge. For assistance, just give us a call at 800.489.2611 or email [sales@falcondirect.com](mailto:sales@falcondirect.com). If you prefer to use a grant writer, we can arrange that as well.

### Grant Program Overview

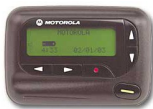

You can apply for repeaters, base stations, mobiles, portables, pagers, vehicle intercoms, and computers – individually, as a group, or everything using the simple plug in narratives and estimates that we provide. Smaller communities are eligible for 95% funding whereas larger municipalities will have 90% funding. Either way, it's a great opportunity

### P25 digital radio system

We offer P25 digital repeaters, base stations, mobiles, and portables that are DHS, FCC, SAFECOM, Bureau of Land Management, and U.S. Forest Service approved in your choice of VHF or UHF. More information available on these Alabama State Contract approved radios at [www.midlandradios.us](http://www.midlandradios.us).

### Digital text messaging system

If you would like a better alternative to a bulky five hundred dollar pager that meets ISO requirements, you will want to know more about our new digital paging system that costs LESS including the required infrastructure. Additional information is available at [www.info4u.us/digitalpaggers.pdf](http://www.info4u.us/digitalpaggers.pdf).

### Vehicle Intercom system

New vehicle intercoms with your choice of FireCom or Sigtronics and protect your hearing, provide compliance with NFPA and OSHA requirements and make it a lot easier to hear your radio. Eligible for funding on the 2008 Assistance to Firefighters grant. More information at [www.fireradios.us/5.html](http://www.fireradios.us/5.html)

### Fire Department PC's

As a Dell Value Added Reseller, we can provide your department with a desktop PC for your office and a laptop for your vehicle plus software especially for use by fire and rescue users. Makes NIFRS reporting easier plus records management and HAZMAT fast lookups.

For more information on our other fire communications products, please visit [www.fireradios.us](http://www.fireradios.us) or give us a call anytime, 24/7 at 800.489.2611 – our job is serving YOU!
