

I-Box Repeater

50 watts of power in the palm of your hand!

from Falcon Direct, Inc.

Never buy another mobile radio – Get the I-Box instead!

Combines the functions of a portable and a mobile!
VHF or UHF – Up to 32 channels

You'll never need a mobile again with an I-Box. Simply install our dual mode RF transponder (gray box shown at the left) and use the VHF or UHF portable 2-way radio of your choice in or out of your vehicle for full high power 50 watt coverage!

Better yet, get the RF transponder meets all FCC requirements through 2018 and beyond and is compatible with 25, 12.5, or 6.25 kHz channel spacing, offering full analog and IDAS (NXDN) digital capability.

The I-Box works best with the ICOM F3161 and F4161 portable radios, but also works with other radios. Call 800.489.2611 for a demonstration. You WILL be impressed – guaranteed!

New I-Box RF transponder meets all FCC Narrow and Very Narrow Band Standards through 2018 and beyond!
