Eagleye Micro DVR

\$ 149.99

The Eagleye Micro is the world's smallest body worn digital video recorder for law enforcement and security personnel.

"Big things come in small packages"

90 minutes of video with supplied 2 GB memory card. The Eagleye Micro has a built in microphone and crisp wide-view lens, so it can record what you see and hear, even when you're away from your vehicle. With a simple press of a button, the Eagleye Micro begins recording. Video can be viewed or downloaded on any computer by plugging the unit into a USB port with the supplied cable.
