

# FirePagers

To get you there when needed!  
from Falcon Direct, Inc.

Your choice of Minitor V,  
WatchDog, or F50V alerting voice  
monitor pagers!

The time when you just selected band and brand are over! Today, you should also consider purchasing only pagers that can operate in on the new narrow band frequencies with the features you need.

We are delighted to offer three different choices with your choice of monitor pagers that offer the features and functions especially designed for the needs of fire and rescue use.

The comparison chart below will give you a quick review of the differences between the three available models. We have also provided a condensed pricing guide for our top choice analog mobile and portable radios on the reverse side .

The prices quoted are Alabama State Contract prices (T300). Additional State Contract information is available at [www.info4u.us/T300.pdf](http://www.info4u.us/T300.pdf).

**America's newest and best emergency alerting pagers with silent/audible alert plus optional message record, multi-channel scan, even talk-back capability!**
