P25 SPECIAL PRODUCTS FOR AFG GRANTS

The closing date for the 2011 AFG program is September 16th. We encourage you to focus on P25 interoperability, firefighter safety, and station house protection - all of which should score high in compliance with DHS, SAFECOM, and SCIP standards. If you prefer to file for analog equipment, please see www.info4u.us/Eligible_Products.pdf or see www.info4u.us/LARS_Fire_Specials.pdf if you favor MotoTRBO type radios. See www.info4u.us/dhsapmemo.pdf for info on narrow banding, and UCALL.

The Best Pager in the World! (And, it's made in the USA!)

That's a pretty strong statement, but we can back it up. The WatchDog pager is: The ONLY American made pager! The ONLY pager with a standard 5 year warranty The ONLY pager with an LCD display that time and date stamps each call. The ONLY pager that has the best audio in the business. You have to hear it to believe it, and it can optionally scan multiple channels. WatchDog costs less than Minitor V and it uses standard AAA batteries. For more information, see www.info4u.us/Watchdog.pdf or call us at 800.489.2611.

Interoperability in the palm of your hand! (Comparable to Motorola APX7000)

Talk to anybody anywhere! The new Thales Liberty SDR portable works on VHF, UHF, 700 and 800 MHz, analog or P25 digital conventional or trunked, in the air or under the water, on a desk or in the field, and it is keypad programmable to allow frequency changes or additions as desired. GSA Contract approved for purchase through Falcon Direct. Get six of these radios for \$30,000. A wide variety of options are available. See www.info4u.us/lbtprices.pdf. For more information on the Liberty radio see www.info4u.us/liberty4u.pdf.

P25 Radios for Fire and Rescue (Comparable to Motorola XTS5000)

ICOM F9011 series radios have the features you want at the price you want to pay. Chose from standard, display, or keypad models. All are both analog and P25 digital compatible, 25 kHz or narrow band, conventional or trunking. Pricing on all ICOM P25 radios is available at www.info4u.us/icom25gsa.pdf for both Alabama State (TS300) and Federal GSA pricing. The F9001 portable and F9511 mobile radios are ICOM top of the line radios. Descriptive literature is available at www.info4u.us/F9011.pdf and www.info4u.us/F9511.pdf. Less expensive models comparable to the Motorola XTS1500 are optionally available. Call for pricing.

Wireless Headsets (Meet NFPA and OSHA Requirements)

Fire stations are prime targets for cooper thieves, arsonists, and vandals. Our wireless headsets protect your hearing, improve reception, reduce background noise to dispatch, and even provide intercom capability without typing up your radio channel. Best of all, you can have control over your mobile radio with full power extended directly to your headset. Budgetary pricing is available at www.info4u.us/X-Tend-X.pdf. If you would like a demo or more information, just give us a call at 800.489.2611 or email ServinU@falcondirect.com.

Station Alarm System (Monitors AC, Fire, and Intrusion)

2011 FEMA Guidelines now approve the purchase of station alarm reporting systems. The ACT-Reporter sends notification messages directly to your 2-way radios and there are no delays and no monthly monitoring fees! Budgetary pricing and other information is available on line at: www.info4u.us/Report.pdf. Our special fire station unit includes monitors for AC, Fire, and Intrusion. Works on both P25 and other digital systems capable of monitoring analog transmissions. . If you would like a demo or more information, just give us a call at 800.489.2611 or email ServinU@falcondirect.com.
