

Reporter II

Remote Viewing System from **FalconDirect**

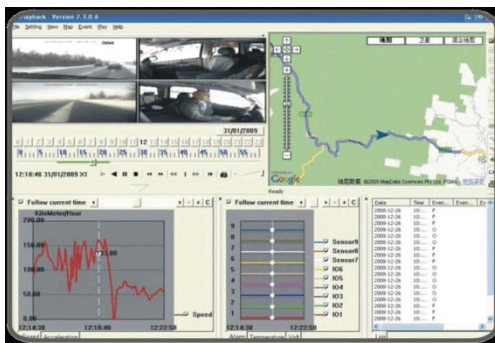

Improves administrative control!
Reduces litigation expense!

Our new Reporter II is America's most affordable driver monitoring and travel activity recorder.

The system consists of the new Model 4ch264 four channel solid state mobile Digital Video Recorder (DVR), and up to four vehicle cameras with both audio and video recording capabilities. Additional information on the DVR is available at www.info4u.us/4ch264.pdf.

The Mobile Mini-IR camera records in full color in daylight conditions or black and white at night with built in Infra Red (IR) capability. The Mini-IR comes with a built in microphone. Additional information is available at www.info4u.us/Mini-IR.pdf.

Data is stored on secure removable SD storage card, optional USB Thumb Drive and viewable on PC software program provided. Optional live viewing also available.
