

# RoadTalk Pro

50 watts of power in the palm of your hand!

from Falcon Direct, Inc.

Never buy another mobile radio – Get RoadTalk Pro!

No mobile required!  
VHF or UHF – Up to 32 channels  
Works in analog and digital modes

You'll never need a mobile again with *RoadTalk Pro*. Simply install our dual mode RF transponder (gray box shown below) and use your portable 2-way radio in or out of your vehicle for full high power 50 watt coverage!

Better yet, get the RF transponder plus one of our new dual mode ICOM F3161 analog/digital radios with in-car charger for a complete package that meets all FCC requirements through 2018 and beyond.

The *RoadTalk Pro* system is compatible with 25, 12.5, or 6.25 kHz channel spacing, offering full analog and digital capability.

Demonstration available on request!

## New *RoadTalk Pro* system meets all FCC Narrow and Very Narrow Band Standards through 2018 and beyond!
