

Super 16 System

Pro Grade 16 Camera Color DVR
System with Built-In DVD Burner

Get Exactly the View you need
with the Pre Installed Pre
Adjusted 2-12mm Zoom Lens

Full Feature System

It's easy to set up a complete, full-featured professional video monitoring security system, thanks to our Digital Video Recorder Security System with DVD burner. The built-in network card makes remote real time viewing possible from any computer connected to the Internet. Included DVD burner makes offloading and archiving crucial video easy. The digital video recorder incorporates the latest in digital technology. Features include playback search, digital zoom, time/date stamp, video loss detection and a convenient DVD burner! The hard drive-based digital recording system

gives you phenomenal recording times, super resolution, instant playback access, rock solid reliability. We've also included our popular Ready To Install series cameras which have a powerful 2-12mm zoom lens, which comes pre-installed and pre-adjusted which saves you time and money. We also offer packaged systems with your choice of 4 or 8 cameras. Call 1.800.489.2611 for pricing.
