

# Falcon Direct

The new *WatchDog* monitor pager has been especially designed for the specific needs of volunteer firefighters, just like YOU!

America's newest pager is also America's Best Pager!

## The *WatchDog* M Series:

Very simple, very loud and very rugged. The M1 single channel or M2 dual channel operation or the M5 five channel pager. Source alert text messaging and message time stamping.

Tone alert, vibrate alert or simultaneous tone and vibrate. The *WatchDog* M Series also has a true alphanumeric display making operational changes simple and fast.

The M5 can operate on a single channel or any two of five menu selectable channel frequencies.

### Price Guide M and LT Series

Single frequency VHF or UHF	- \$365
Upgrade to 2 frequency scan	- 35
5 frequency scan (M series only)-	60
Add Message record/recall	- 40
Programming kit	- 145
Carrying case (nylon or leather) -	18

## The *WatchDog* LT series:

The same rugged design as the M series but without an LCD Display. The LT is .6 inches shorter than the M Series and 1.6 ounces lighter. The LT has a maximum of 2 channels (5 for the M Series).

A man's best friend is his dog .....  
a fireman's best friend is his ***WatchDog***™

Somebody finally heard you! For years, you've been asking for a simple and reliable pager that works when needed, loud enough to hear without optional amplifiers, and standard off the shelf batteries. It's assembled with pride in the United States of America where it was designed, tested and produced by people who know and understand the unique requirements of volunteer fire and rescue service personnel. The *WatchDog* is not a knock off of another product. The *WatchDog* has been designed from the ground up with the features, price, and performance that makes it especially well suited for users like YOU!
