TO THIS!

Most employees.....

are honest, hardworking, and give a fair days work for a fair days wage. But even the best employee needs a little supervision. That's why we offer the *WatchMate* OBD-X5 vehicle tracking system.

Forget everything you know, or ever knew, about GPS vehicle tracking! The new OBD-X5 *WatchMate* system changes everything! If your vehicle was produced after 1995, the chances are that the new OBD-X5 will plug right into your vehicle diagnostics connector port and begin providing instant tracking information via a password protected Internet portal from your PC, SmartPhone, or Tablet! See www.info4u.us/ODB_Info.htm to check vehicle compatibility.

With this incredible device, you will know where your vehicles are, what they are doing and even how much gas they have left in the tank. You'll even get an email when the vehicle travels outside an assigned area or travels at excessive speeds! And, there will be no delays in reporting since all information is updated every 10 seconds! There is no wiring and no installation. The OBD-X5 just plugs in! See www.info4u.us/Install_OBD.pdf to see how simple it is to install!

Are you ready for the price? Just \$199! See www.info4u.us/OBD.Specs.pdf for product specifications! You pay just \$29.95 monthly for unlimited nationwide use with monitoring capability from virtually anything that will connect to the Internet! You can get a live view at any time, plus daily activity reports along with email out of area and excessive speed alerts. The OBD-X5 can quickly be moved from one vehicle to another for first class administrative control at minimal expense.

The OBD-X5 is ideal for fleet administrators or for use in vehicles with high legal risk. Best of all, you pay only when you need it. You pay just \$19.95 for activation and you can discontinue service at any time. Reactivate when needed. Want to see how it works? Go to www.info4u.us/heresburch.pdf to see where I am and what I am doing right now! When you are ready to try an OBD-X5 in a single vehicle, for random use in multiple vehicles, or equipping an entire fleet, just give us a call at 205.864.2611 or toll free 800.489.2611 outside the Birmingham metro area or email ServinU@falcondirect.com. You'll be glad you did!
