

## It had to happen sometime!

For the first time ever, an American manufacturer is offering a top quality P25 portable radio for just \$1,178 for the non-keypad model of **\$1,211** full keypad model with display to our public safety users. Relm Wireless, through Falcon Direct, is now offering four additional KNG "S" and "II" Series portable radios with two of them being keypad programmable!

The "TII" Series radio have all the features in the standard KNG including IP67 Submersible capable, Class A-TIA specification, 12 hour talk time with the 1950 MAH lithium battery and weighs just 16oz (22 hour talk time with the 3900 MAH battery), optional AA Clam Shell. The "T2" Series Clones to all other BK radios. It's MIL-STD 810 C, D, E, F and it is "Made in America!" The only differences in the new "TII" Series radio is that it is designed only for conventional (non-trunking) use and it has a channel capacity of 512 versus the 2048 channels available with the trunking KNG models. The best way to tell you about the incredible American Made KNG series is to compare it with others. To see how the KNG stacks up against others, please visit [http://info4u.us/MSWIN\\_P25\\_Catalog.pdf](http://info4u.us/MSWIN_P25_Catalog.pdf).

Battlefield tested, over 9000 units have been in service in Afghanistan with the US Army for over the past year. Performance beat out all competitors and for value, nothing else even comes close! Want to try the KNG "TII" Series? Just give us a call at 800.489.2611. For detailed info, see [http://info4u.us/MSWIN\\_P25\\_Catalog.pdf](http://info4u.us/MSWIN_P25_Catalog.pdf). You're going to love this radio!

For information on other Relm Wireless products, please visit [www.info4u.us/relmcontract.pdf](http://www.info4u.us/relmcontract.pdf). Be sure out check out our portable incident command repeaters which are briefly described below.
