

"At last, an FCC approved dual band PagerRadio for public safety users!

Dual Band **PLUS**TM VHF/UHF PagerRadio

SYNTHESIZED

- PC and Keypad programmable
- Tri-Color LCD display....
- 1500 mAh Lithium-Ion battery
- Rapid 5 hour desk charger
- Free programming (16 CH)
- Free UPS Ground shipping

The all new Dual Band **PLUS** PagerRadio provides an ideal interoperability solution for public safety users.

The incredible Dual Band **PLUS** is fully compatible with both current 25 kHz and the new 12.5 kHz narrow band frequencies. It is synthesized, fully programmable with an optional PC programming kit. The Dual Band **PLUS** covers the entire 136-174 and 400-470 MHz bands in a single compact, lightweight package. With 5 watts of power in VHF and 4 watts in UHF, the new radio has up to 128 channel capacity and has both voice encryption and two-tone paging capability. Better yet, it is both PC and keypad user programmable!

Did we mention the price? Just \$199 as a special introductory price. Order yours today!
