

# StreetCam+

## Smart Video System for Law Enforcement

For every one  
of these,

You can buy TEN of these!

The incredible new StreetCam has both front and rear day/night cameras with audio plus a built in crash sensor, GPS tracking, event reporting and a removable SD memory card to allow report viewing and archiving on your PC. With our free Pocket MP3 audio recorder with USB connector, this system does it all!

A police car without a camera and an officer without a voice recorder is like going to a dance with one shoe! A vehicle camera system can easily pay for itself in reduced litigation expense and better administrative control.

The problem is cost! A good vehicle camera system can easily cost \$5,000 per vehicle along with high maintenance and installation costs.

Compare that to our StreetCam+ system with a free pocket MP3 audio recorder for just \$495 and you can install it yourself!

Speaking of labor, the number one problem with any camera system is the task of removing the memory cards and archiving the data of a PC. If you have a fleet of vehicles, you can add WiFi capability that allows data to be automatically downloaded when your vehicle pulls into your parking lot. Call us at 800.489.2611 for a quote. This option will pay for itself in no time!

Additional information is available at [www.info4u.us/StreetCam-Features.htm](http://www.info4u.us/StreetCam-Features.htm).

Live action videos are available at [www.youtube.com/user/eye3data](http://www.youtube.com/user/eye3data).

In closing, we should point out that we offer traditional vehicle cameras which we can custom design for your specific needs and budget. Just drop us an email to [ServicingU@falcondirect.com](mailto:ServicingU@falcondirect.com) for assistance. We're ready when you are!
