

# MAXON TP-8000

The standard against which all other analog radios are judged. Best Specifications, Best Performance, and Best Price!

Serving the world's communications needs since 1974!

## It's the little things.....

that make the Maxon TP-8000 series radios unlike other industrial grade radios. For instance, a three year warranty coupled with the best durability and water resistant ratings in the industry!

Unique features such as user ID which appears on the screen each time the user talks and 2-tone selective paging are rare features for a radio in the TP-8000 price range.

There are other things that make it different, such as a dual slot desk charger that can simultaneously charge a radio and spare battery. Even the belt clip is designed for user convenience. If replacement is ever needed, you don't need a screwdriver and three hands to exchange – just push a release button, slide the old clip off and insert the new one.

## User Price Guide

TP-8102 5 watt VHF analog portable - \$258  
2-way radio Including antenna, battery, desk charger, programming & 3 year warranty UHF 4 watt, same price.

## Optional Accessories

- Add 6 unit gang charger - \$299

- Spare battery, 2200 mAh - \$59

Trade-in program for GMRS or Color Dot radios. Call 205.854.2611 for more info.

Maxon has been around since 1974, longer than most manufacturers other than Motorola. On the subject of Motorola, check out the comparison chart on the back to see how the TP-8000 series radio out classes the Motorola CP200d in virtually every respect!

The TP-8000 is designed for both domestic and international use with the widest broadest operating range of any 2-way radio anywhere near it's class – 136-174 MHz in VHF or 400-470 MHz in UHF with 5 watts of power in VHF and 4 watts in UHF.

The best way to learn more about this new radio is to try a couple! For additional information, give us a call. We will send you a Trial Option Agreement which will allow you to try a pair of working portables for two weeks at no cost or obligation (other than paying return shipping cost within 15 days).
