

OK – Now comes the good part.....

You've heard our story. It may sound too good to be true. That's why we are willing to PROVE that *FleetPulse*™ will do everything we say and more! Here's how we can do it.....

Place your order for up to ten units. We will take your purchase order or credit card as you choose. You won't owe us anything for 60 days and if you are not 100% satisfied, simply return the units and you won't owe us ANYTHING!

Put the units in the vehicles of your choice. Connect the wireless router, which we will supply, and load the maps, which we will provide, on your PC. If you need any help at any point, a Netistix representative will be ready to guide you through the process of getting set up quickly.

For the first week, just let the system do its thing. You don't need to do anything except let the data accumulate for a review during the second week. A Netistix representative will call you to review your reports and explain how to analyze the data accumulated during the first week. At that time, he will make one or more specific recommendations, most likely starting with a very simple operational change. He will assist you on the proper procedure for implementing this change.

During the second week, implement the suggested changes. A second review with the Netistix representative will be scheduled. A review of your progress in implementing the initial operational changes will be made at that time. Hopefully, the new program will be in place by the end of the second week.

During the third week, a Netistix representative will make an additional call to review the data based on the new operational changes.

Continue to review your data on a daily, bi-weekly, or weekly basis as you choose. Note the savings as you review these reports as well as the other benefits associated with this program. You'll know who was where, how long they were there, when they got there, when they left, and whether or not they are following the guidelines of the new program.

It won't take you 60 days for you to see the benefits of this program – we guarantee your success or it costs you nothing!

If you have any questions, please call me at 1.800.489.2611. Better yet, let's get started, TODAY!
